About us

Our highly skilled craftsmen maintain precision tolerances and take pride in their work. The Swiss are known for innovation, quality, and precision in this ever-changing fast paced world of manufacturing technology. Throughout the years, Swiss companies have introduced innovative ideas and developments that have forever changed the industry as we know it. The industry has even labeled some machines after the Swiss, such as Swiss Type automatics.

Juratech Engineering

Our team is dedicated to bringing forth new and innovative Swiss technology and Swiss products and services to the market. The world is full of idea makers and their concepts, but most fail for lack of direction. We are the firm that assists with filling in those gaps, by introducing them to new products and concepts. Swiss tools are specifically designed for Swiss type screw machines with very strict production standards. What does this mean to you, the customer? Using Juratech Engineering Swiss tooling will help you:

- Decrease Production Downtime
- Decrease Manufacturing Costs
- Manufacture More Accurate Parts
- Have Peace of Mind

Juratech Engineering Swiss made tools is your solution. With many years of experience working in Switzerland and the US with Swiss CNC machines and Swiss Made tools, we have the technical expertise to advise and help design the tool you need. Our Swiss suppliers will produce the tool you need with your exact specifications and tolerance ranges. We guarantee it!

World Wide Acceptance

I'm a Vendor

Juratech Engineering also established a network of Vendors to assist with product development. Tell us how you'd like to participate with us:

You have a wealth of experience in a profession that can assist in bringing projects forward. You have a reputation for top-level service and can back it up with references. Welcome to our network!

SaddleUp Riding School

Thursday 12, August 2010

Welcome to Saddle Up Riding School

Welcome to Saddle Up Riding School where we promote personal growth through better horsemanship. Getting the right start will make a significant difference in your riding abilities and Jennifer is the ideal coach. Her enthusiastic and personalized teaching style will help you progress in this exciting sport, gaining self-confidence while having a great time. Jennifer has years of experience introducing new riders to horses and she'll help you become a better rider and accomplished horseperson.

Beginner Riders

At Saddle Up Riding School you will learn basic horsemanship from the ground up with a western focus. Even if you have never touched a horse before, you will learn the skills needed to move around these gentle animals safely and with ease. You will learn everything from groundwork, controlling the horse at walk, trot and lope, trail riding skills, use of equipment and tack, equine care and much more. We want to light a fire in your heart and develop a lifelong relationship with horses!

Children Riders

Interactions with horses are beneficial at any age and we have children of all ages at Saddle Up Riding School. We have found that children 6 years old and under are filled with immense joy on horseback yet may not have the muscles or attention span for an hour-long lesson. We offer shorter lessons to accommodate these little riders. Ask Jennifer for details.

Adult Riders

You are never too old to begin riding or to get back in the saddle! Whether you want to learn to ride for pleasure, fitness, or even competition, Saddle Up Riding School can help you achieve your goals. Jennifer has many adult students and understands the difficulties working around a busy work and family schedule. Give her a call to discuss your scheduling needs.

Riding School Tuition

Assessment Lesson - \$20- for ½ hour initial assessment per person

\$60- 1 hour private lesson per person using our lesson horse

\$50- 1 hour private lesson per person using your own horse

\$35- 1 hour group lesson per person (3+)

\$300- Private lesson series of 6 lessons.

Antonio Loudrigues Photography

wedding photography

Creativity, an open mind, a journalistic perspective and unwavering attention to detail.

Along with his reportage techniques, Antonio also creates some fantastic directed pictures at memorable points of a wedding day. Through great interpersonal skills and a natural artistic ability, the directed photos of groups and individuals, such as the bride and groom, are created effortlessly. This style ensures that the wedding day runs smoothly and that all of the guests enjoy participating in the photos. These are the most important elements that help to create a **wedding photo album** that will be cherished for ever.

For more information or to schedule a meeting to discuss your wedding, please **contact** Antonio directly.

RiskInternational.net

managing risk is our business

The industry's leading web site for insurance and risk management information and strategies.

Risk International - Risk Management Services Network, Inc. is a products, services, research and publishing company focusing on security issues, risk management and insurance. We take great pride in giving you up-to-date, objective, and practical strategies and tactics to help you succeed and prosper in a changing world and insurance and risk management environment. You can obtain this information in the books, manuals, and newsletters we publish in a variety of print and electronic formats. These pages describe our products and give you helpful answers to common customer service questions.

Our website is regularly visited by leading security professionals, commercial and personal lines insurance agents, risk managers, underwriters, claims professionals, and attorneys.

SAFETY - OF COURSE IT'S SAFE... TRUST ME!

Risk Management Services provides an integrated, systematic process that evaluates your personal or your company's total safety posture. Analysis of your operational safety, health, industrial hygiene, environmental, fire protection, emergency preparedness, and human factors considerations becomes the basis for recommended integrated solutions. Our Performance Based analysis takes into consideration your company objectives and balances them against regulatory requirements and long term management goals. Risk International-Risk Management Services works with you or with your personnel to determine your strengths and weakness, identify potential problem areas, and recommend viable solutions. We help you make safety an integral part of your life or your company's operation.
